

Product Fact Sheet

The Hybrid 4-Rail™ Post

Description

The new Hybrid 4-Rail incorporates the best qualities of fiberglass and plastic. Specially designed reinforcing fibers are blended with UV stable plastic to create a flat post with the bright color of plastic and the impact resistance of the combined fiberglass and plastic. This hybrid post has no exposed fibers that can cause skin irritation or fiberbloom.

Product Integrity

The Hybrid 4-Rail design allows the post to bend over when hit, then snap back into its normal upright position. The Hybrid 4-Rail can be driven directly into most soils.

Fade Resistant

This special blend of materials provides maximum fade resistance. The Hybrid 4-Rail is guaranteed not to fade significantly or become brittle for a minimum of 10 years. All Rhino products are batch tested in our own weatherometer.

Temperature Stable

The Hybrid 4-Rail works extremely well in both cold and heat. The post will remain stable from -40°F to +175°F.

Standard Lengths

66" and 72"

Other lengths are available, but may require a minimum order. Call for details.

Colors

Standard colors include orange, yellow, white, blue, green, red, purple and brown. Custom colors are available, but require a minimum order. Call for details.

Product Fact Sheet

The Hybrid 4-Rail™ Post

Easy Installation

The Hybrid 4-Rail must be installed with the Rhino HPD-45 Driver. The driver keeps the Hybrid 4-Rail rigid enough to be driven directly into most soils. In some hard pan and rocky soils, you will want to use the Rhino Pilot Hole Driver (PHD-100), the same tool used with all Rhino Fiberglass Composite posts, as well as the Rhino PlastiCurve.

High Visibility Decal System

Our color fast decals are manufactured specifically for extended life in harsh outdoor environments. All our decals are tested by an independent testing laboratory to ensure maximum UV stability and fade resistance. All standard reflective recreation activity decals are available and we can create any custom decal you require.

FADE RESISTANT DECALS
